

# Alexandre Masciulli

*Université de Technologie de Compiègne*

Computer Science Department (September 2011 – now)

## **Autumn 2013** *September 2013 – June 2013*

- Statistics
- Document engineering
- Information retrieval and indexation
- IT project management
- Knowledge capitalization
- Italian beginner

## **Spring 2013** *February 2013 – June 2013*

- |   |                  |
|---|------------------|
| • User experience and interactive systems engineering | A – distinctions |
| • Networks and web application                        | A – distinctions |
| • Multi-agent systems                                 | A – distinctions |
| • Experimental study                                  | A - distinctions |
| • Music and sound technologies                        | B                |
| • Professional English                                | B                |

## **Autumn 2012** *September 2012 – February 2013*

- |   |                 |
|---|-----------------|
| • 6-month internship as a mobile application developer<br>(Shopmium, Paris) | A- distinctions |
|---|-----------------|

## **Spring 2012** *February 2012 – June 2012*

- |  |                  |
|--|------------------|
| • Object-oriented programming                        | A – distinctions |
| • Experimental study                                 | A - distinctions |
| • Database engineering                               | B                |
| • Operations research and combinatorial optimization | B                |
| • English-speaking civilization                      | B                |
| • Operating systems                                  | D                |

## **Autumn 2011** *September 2011 – January 2012*

- |                                  |                  |
|----------------------------------|------------------|
| • Algorithms and data structures | A – distinctions |
| • Artificial intelligence        | A – distinctions |
| • Discrete event simulation      | C                |
| • Computer architecture          | C                |
| • Interculturality in English    | C                |
| • History of logic               | C                |
